PROFILE

I want to contribute with the skills I have and want to move forward with the ideas I have. Because I had experience as a web developer, social organization and education when I was in college. Evidently I have made several projects and developed them again. It is proven by several projects that I have worked on such as the E-Learning website I am currently looking for a full time job as a Web Developer in the IT and Telecommunications industry. On the other hand, I often do freelance work building E-Commerce websites and logo design
